(2) A person responsible, protesting that no nuisance exists, shall file with the City Recorder a written statement which shall specify the basis for so protesting.

(B) No sooner than 30 days after the date of the notice, the Council, in the regular course of business, shall hear and make a decision on the objections of the costs assessed.

(C) If the costs of the abatement are not paid within 30 days from the date of the notice, an assessment of the costs, as stated or as decided by the Council, shall be made by resolution and shall be entered in the docket of city liens. When the entry is made, it shall constitute a lien on the property from which the nuisance was removed or abated.

(D) The lien shall bear interest at the rate of 12% per annum. The interest shall accrue from the date of entry of the lien in the lien docket.

(E) An error in the name of the owner or person responsible or a failure to receive the notice of the proposed assessment will not void the assessment, and it shall remain a valid lien against the property.

(B) When a nuisance is abated under this section, the person responsible may also be prosecuted for violating this chapter and other remedies may also be sought.

(Ord. 01-2004, passed 9-8-2003 9-8-2003; Am. Ord. 02-2008, passed 4-14-2008)

§ 90.99 PENALTY.

(A) A violation of any provision of this chapter is punishable, upon conviction, by a fine not to exceed \$1,000. The court shall establish the fine, and consider if the violator has abated the nuisance.

(B) All persons responsible shall be liable for any injuries resulting from a violation of any of §§ 90.02 through 90.19.

(C) Each day's violation of a provision of this chapter constitutes a separate offense.

(D) Abatement of a nuisance is not a penalty for violation of this chapter, but is an additional remedy. The imposition of a penalty does not relieve a person of the duty to abate the nuisance. However, abatement of a nuisance within 10 days of determination that a nuisance exists will relieve the

(Ord. 287, passed 5-9-1988)

§ 91.26 PURPOSE.

There is hereby established a uniform system of numbering all houses, stores, establishments, and other buildings, excepting minor sheds and outbuildings, now situated or which may hereafter be erected within the city limits of the City of Glendale, Oregon, which for convenience are hereafter designated as structures. Pursuant to the system the numbers shall be placed near the main entrance of each structure, and in accordance with the map and plan now on file in the office of the City Recorder, which shall be known as the Official Address Map of the City of Glendale. All public streets shall be given a name in accordance with the provisions of §§ 91.25 *et seq.* and as approved by the City Council. (Ord. 287, passed 5-9-1988) Penalty, see § 91.99

§ 91.27 ADOPTION AND MAINTENANCE OF OFFICIAL ADDRESS MAP.

The Planning Commission shall assign all numbers for all structures, existing or hereafter erected within the city, in accordance with the provisions of §§ 91.25 *et seq.* and shall prepare and maintain a map of the city whereon the numbers assigned to residences, buildings, and premises are clearly indicated. This shall be kept up to date by the City Recorder with the numbering and street naming that takes place and shall be known as the Official Address Map of the City of Glendale.

(Ord. 287, passed 5-9-1988)

§ 91.28 BASE LINES ESTABLISHED.

All numbering south of Pacific Avenue shall bear no directional designation. That portion of avenue east of Molly Street shall be designated East, and that portion of street north of Pacific Avenue shall be designated North. All numbering west of Molly Street shall bear no directional designation.

(Ord. 287, passed 5-9-1988)

§ 91.29 NUMBERING SYSTEM.

(A) All buildings shall be numbered in accordance with the following system of numbering which is hereby designated as the Glendale Addressing System.

(B) All numbering shall start from the base lines described in § 91.28 with the lowest number of any 1 street or lane being those immediately adjacent to the base lines and with higher numbers being assigned in progression with even numbers on the left and the odd numbers on the right as the distance from the respective base lines increases.

(C) The numbering system shall be based on lineal footage of 100 numbers for every 300 feet of distance along a street. From an intersection with the base line, numbers shall start at 100. For streets or lanes not intersecting a base line, numbering shall begin at the end closest to the base line, unless the Planning Commission determines extension of the street or lane towards a base line may occur in the future or determines the numbering would be confusing, in which case he or she may assign numbers most appropriate to the situation.

(D) A detailed addressing map and vicinity map of addressed areas will be prepared according to the Glendale Addressing System by the Planning Commission and updated when changes occur by City Recorder.

(E) Upon determining the general direction of streets applicable in this section, irregular or winding streets shall take the number sequencing range of nearby streets running that determined direction. Looped streets shall be numbered progressively as if they were a section of the street they originated from. A circular street (having 1 entrance/exit) shall be numbered progressively from its point of origination and according to that original direction on the grid pattern.

(F) Where a building of premises has several entrances for use by different occupants, the city may assign a different number for each principal entrance. Mobile home parks and similar development shall be assigned 1 number to the principal entrance with each unit or space identified with a suffix indicating the space number.
